

Year 4 Homework Pick and Mix

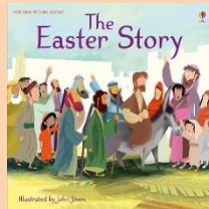

Get Reading

Write a book review of one of your favourite books. Look on Twitter to see what books the teachers have been reading and their reviews to give you an idea.

Get Speaking

As Easter is approaching, can you retell the Easter story? Maybe tell it to a family member or act it out.

Get Creative

Following on from our learning on the Romans, can you design and make your own Roman Shield?

Get Mathematical

Look at these numbers and discuss which number is the odd one out. Is there more than one answer? How many different answers can you find?

435	825
2054	521

Get Exploring

Think of a country that you don't know much about and would like to know more. Research this country and see what interesting facts you can find.

Create a poster/booklet all about the country with the information you have found out. Perhaps you could even write a persuasive booklet about why it would be good to visit.

Get Online

Imagine you are a programmer/designer. If you could make any game, what would it be?

Have a go at creating your own game using scratch. You can also look online on scratch to see what games people have created and try them out!

<https://scratch.mit.edu/>

Get Cooking

At Easter, Christians celebrate by making and eating Easter treats. Have a go at making your own.

Character Muscles

One of our character muscles is kindness. How can you show kindness while at home? Share your random acts of kindness to us on twitter so we can see what you have been doing or record them in a book.
