

Year 2 Homework Pick and Mix

Get Reading

Read a pirate story or poem of your choosing. Pick put some of the pirate vocabulary that has been used.

Now see if you can write your own pirate acrostic poem.

Get Speaking

Collect 10 interesting objects from around your house and put them in a bag that you can't see through.

Put your hand in the bag and describe to someone else what shape the object is, what it feels like, but don't tell them what it is! They need to guess what it is you're describing.

Get Creative

Next time you go the park or to your garden, see if you can find some stones and paint some pirate pictures on them. You could link the pictures to your pirate acrostic poem or make up another story to share with your family.

Get Mathematical

Have a go at solving the following problem. I have attached a bigger copy of the problem if you can't read it from here.

15 pirates are going on a voyage! How many packets of each item do you need?

Continue to log on to TTRS and practise your 2, 5 and 10 times tables.

Get Exploring

Conduct pirate science experiments at home using the attached document. Remember to have fun but also try to explain the outcome of each experiment using scientific vocabulary. Get investigating me hearties!

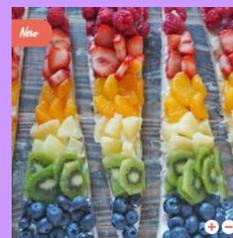

Get Online

Use a search engine to research facts about pirates. Type in 'pirate facts for kids' to ensure you remain safe online.

Get Cooking

Follow the attached recipe and see if you can make your own Rainbow Fruit Pizza.

Character Muscles

The character muscle for the next week is **'Managing Impulsivity'**

This means having to control ourselves from doing something that may not be appropriate at the time – showing some self-control.

Can you think of a time when you haven't managed your impulsivity? Talk to an adult about this and think about when you could have done differently.

Dear Parent/Carer,

Here are your child's home learning activities for the coming week. The teaching staff have selected some activities that will support your child with their learning and encourage them to become independent learners. Please make time to choose and do some of these activities with your child. We will always be interested to hear what home learning activities you have done.
