

Reception Homework Pick and Mix 8

Summer

Get Reading and Writing

Have you ever received a post card? What is the purpose of a postcard? Can you create your own postcard, writing about what you have been up to this week. You could send these to the school or why not send these

postcards to a family member to keep them updated on your activities? Remember to sound out your words carefully.

Get Speaking

What songs about Summer do you know? "The sun has got his hat on" and "Ring a ring o' roses" are my favourite ones! Research new songs that you could learn about Summer and practise singing them. You could even record yourself singing them and post it on Tapestry!

Get Creative

Can you create a Summer picture of a tree using just your fingerprints? Using a picture of an empty tree (or draw your own), fingerpaint new leaves on to the tree. What colours will you need? Can you add anything else to your picture? How about some green grass or a big yellow sunshine?

Get Mathematical

This week, we would be looking at doubling, halving and sharing. Can you practice these up to 10? You could use some biscuits and practice sharing these out between two people. Another idea would be to find an item in your household that you could double. There are lots of songs on Youtube that could help you with this.

Get Exploring

Create a Summer scavenger hunt. What items might you spot during the Summer. Some ideas may include:

- Green leaves
- Butterflies
- Ants
- Daisy flowers

Go on a family walk and tick off as many of your items as possible.

Get Online

Watch a video on Bitesize about the four different seasons. Can you write a sentence about each one? What makes them different?

You can find the video here:

<https://www.bbc.co.uk/bitesize/topics/zkvv4wx/articles/zcx3gk7>

or google "bitesize seasons"

Get Cooking

Teddy Bear's Picnic time! During the Summer, I love having a picnic with my teddy bears. Make a lovely lunch with your grown ups and enjoy eating it in the sunshine with your cuddly friends.

Character muscles

Problem Solving

This week, can you practise an activity that you find tricky? Maybe you could work out how to tie your shoe laces or solve a tricky jigsaw independently. Remember to look at different ways to solve the problem and be resilient. Practise makes perfect!

Dear Parent/Carer,

Here are your child's home learning activities. The teaching staff have selected some activities that will support your child with their learning and encourage them to become independent learners. Please make time to choose and do some of these activities with your child. We are always interested to see and hear what home learning activities you have done, so make sure you share your work with the rest of the class! Add anything you complete to our Tapestry!
